

Photovoltaic bracket supply contract template

Can a provider sell a photovoltaic system to a customer?

WHEREAS, Provider has offered, at his sole cost and expense, to install, maintain, own, replace, repair, and operate a photovoltaic system at one or more of the Property (ies) and to sell Solar Services (as hereafter defined) produced by the solar photovoltaic system to Customer as provided in and subject to the provisions of this Agreement.

Do solar projects need an EPC contract?

In our experience, most utility-scale solar projects use an EPC Contract. An operation and maintenance agreement: This is usually a medium- to long-term Operating and Maintenance Agreement (O&M Agreement) with an Operator. The term of the O&M Agreement will vary from project to project.

Is a contract price a factor in the bankability of a solar project?

Price is also a consideration but is usually considered separately from the bankability of the contract because the contract price (or more accurately the capital cost of the solar facility) relates to the bankability of the project as a whole.

Do you need a solar power agreement?

These agreements can be related to a solar power lease, PPA, or outright buying of the system. Whenever developing alternate forms of power, it's good to have an agreement with your Provider. This ensures everyone is clear on their roles and responsibilities.
