

As a technology leader SCHMID supplies highly efficient equipment for the total value chain of photovoltaics. The product range includes single equipment for wafer, cell and module production as well as turnkey production ...

Its unique nozzle design and motion trajectory planning can shorten the spraying time of 1.1×2.2m photovoltaic glass while ensuring the quality of the coating. At the same time, the equipment also has good compatibility ...

NorthGlass produces vacuum coating technologies and many other coating application units that are suitable for construction, automotive, photovoltaic and electronics glass applications.

Whether you're a solar panel producer or a construction materials supplier, understanding the equipment for producing photovoltaic glass directly impacts product quality and market competitiveness.

Custom-designed solutions tailored to the specific needs of solar panel manufacturers. Proven track record in helping manufacturers achieve higher efficiency, lower costs, and regulatory compliance.

Key manufacturers include Xinyi Solar, Flat Glass Group, and China Electronics (CEC) Rainbow Group, with the top five companies accounting for over 80% of the market.

Our machines are trusted by leading manufacturers across the solar, automotive, and architectural glass sectors. Ready to Optimize Your Glass Production? Let us help you find the best machinery for your glass ...

Saint-Gobain Coating Solutions provides magnetron sputtering targets for the photovoltaic PV-thin film cell industry. Learn more about our products here today.

Find your coating machine for photovoltaic applications easily amongst the 4 products from the leading brands (FOM Technologies, Han's Laser, ...) on DirectIndustry, the industry specialist for your professional purchases.

SIMVACO is a professional manufacturer of PVD coating machines, specializing in advanced sputtering technology for industrial surface treatment. Since 2010, we have provided reliable magnetron sputtering and ...
