

Plastic pallets for export of photovoltaic panels

PVpallet solar panel pallets are designed specifically for solar modules--not adapted from generic pallet designs. Unlike traditional wood pallets and single-use packaging, PVpallet pallets provide consistent ...

You can find export pallets in all varieties in our inventory, including nestable, rackable and stackable models. Finding the right pallet will allow you to maximize space when shipping and also ensure that ...

Introducing the Solar-Flex Pallet X-SE by PVpallet for the EU-Market, the pioneering solution that's transforming the solar industry. This innovative pallet is the first of its kind, boasting adjustable, ...

This 1700×1700mm×150mm HDPE splicing plastic pallet combines modular large-format construction, 6 runners racking strength, and steel-reinforced ventilated decks to meet the demands of solar panel ...

Engineered for durability and sustainability, these pallets reduce panel breakage by up to 92% while streamlining logistics with an adjustable, collapsible design.

Custom 1970×1010mm solar panel pallets designed for secure PV module transport. Specialized solar pallet with protective features, anti-slip surface, and optimal dimensions for photovoltaic industry needs.

Discover how collaboration led to the creation of the solar industry's first reusable, collapsible pallet solution, reducing waste and panel damage.

While plastic is a useful solar module packaging material, its overuse poses sustainability and cost challenges. Responding to the global call for reducing plastic waste, UFP Packaging is committed to ...

From reusable bulk bin containers to plastic pallets and custom packaging, we've got solutions that protect your products, reduce waste, optimize storage, and simplify logistics--all while helping you ...

Eckpack uses fully recyclable high strength and environmentally stable PPT plastic. Talk to our specialists about your module packaging and transportation requirements to gain all the advantages ...
