What's going on with Portugal's electricity system after a blackout?

(AP Photo/Armando Franca,file) LISBON (AP) -- Portuguese authorities on Monday announced a raft of measures to strengthen the country's electricity system following the April 28 blackout that left most of Spain and Portugal without power for several hours.

Why did Spain's electric grid fail?

Spanish authorities in June said an investigation found that the country's electric grid was unable to handle a surge in voltage, which triggered small grid failures in the south of Spain that cascaded into larger ones. The chain reaction eventually brought down the electric system in the two Iberian nations.
