

I have had issues with the Solar in the Expanda (It didn't get fitted properly and just doesn't work) so decided to add the portable Solar option to both the Prado and the Expanda.

I wanted to use the Kings 200w solar blanket in the event that the car's roof was under shade. I would simply unplug the roof panel, and plug in the solar blanket via an Anderson extension cable.

We order and supply all necessary products for installation. Adventure Additions transformed a Land Cruiser Prado by wiring and installing a dual battery system. The system enhances the vehicle's ...
