

Solar & Storage Live is Saudi Arabia's largest renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more energy efficient system.

Join us at Solar & Storage Live Saudi Arabia in Riyadh, taking place 12-14 October 2025. Secure your ticket here, or find a Solar & Storage Live event near you. This report explores Saudi ...

Here's the kicker: The plant stores excess solar energy during peak production hours. When Saudi's fierce sun dips below the dunes, this stored energy prevents the grid from crashing ...

From Tesla's "Megapack" installations to China's CATL building a desert battery gigafactory, Riyadh's become an energy storage theme park. The real magic happens when these ...

The "Solar & Storage Live" is a leading international trade fair focusing on solar PV, energy storage systems, and complementary technologies. It is held annually at the Riyadh Front Exhibition & ...

Through the National Renewable Energy Program, overseen by the Ministry of Energy, the Kingdom aims to achieve a storage capacity of up to 48 gigawatt-hours by 2030.

Saudi Arabia is accelerating large-scale solar, commercial rooftops, and storage to support Vision-aligned energy goals. The show convenes the full ecosystem --from policy to ...

Hold onto your solar panels, folks--Saudi Arabia just dropped a bombshell in the energy world! The Riyadh Energy Storage Project tender, announced in late 2024, aims to deploy 8GWh of ...

With 1.5 GW of solar capacity, 600 MW of wind power, and 400 MW/1,200 MWh of battery storage, this megaproject aims to power 750,000 homes while cutting CO2 emissions by 2.8 million tons annually. ...

The trial phase of the Riyadh Parking project is already underway, with the data gathered set to shape future parking management strategies in the city. The full rollout is expected in October ...
