

St Lucia Electricity Services (LUCELEC) is planning to tender a 10 MW solar project in Saint Lucia. According to a notice posted by the utility, the facility will be the island's second...

Explore the latest Saint Lucia Solar Power Tenders and gain access to real-time government bids, eProcurement updates, and detailed information on government contracts in Saint Lucia.

The funding supports the Eastern Caribbean Solar Challenge, which is set to deploy photovoltaic (PV) systems on critical public buildings in Saint Lucia, St Vincent and the Grenadines, and St Kitts and ...

The project, which will be the island's second industrial-scale solar initiative, includes 10 MW of solar power and an energy storage system with 13 MW capacity using two-hour lithium-ion ...

Saint Lucia has launched its first-ever solar farm, the La Tourney Solar Farm, which will provide clean energy to about 3,400 homes.

The proposed bill aims to decouple fossil fuel dependency by integrating solar, wind, and other renewable sources - but all power will still flow through LUCELEC's grid.

Lucia currently imports most of its energy needs, but solar power offers a sustainable way for the island to generate its own electricity. By becoming more energy-independent, St. Lucia ...

Once completed and operational, the 10 MW solar farm will provide clean, reliable, and sustainable energy to power homes and businesses across Saint Lucia, marking a new chapter in ...

In a significant move toward energy independence and climate resilience, Saint Lucia is preparing to launch its second industrial-scale solar project--a 10 MW photovoltaic installation paired ...
