

The Aldelano Solar ColdBox TM can help humanitarian organizations or governments fight food waste and provide medical cold storage all through robust solar-powered refrigerated containers.

Our solar-powered ice maker, available in flake or block ice configurations, provides continuous ice production and storage 24/7. It is a versatile solution for businesses in the agriculture, aquaculture, ...

The SelfChill Cold Room includes everything you need for a final plug-and-play installation at your location. It is an autonomous, solar-powered cooling system that can be integrated into various ...

The Aldelano Solar ColdBox(TM) is an industrial-grade, portable, solar-powered cold storage mini-warehouse that provides a completely renewable power source, refrigeration and freezing capacity, ...

Recognizing the urgency to adopt sustainable practices, solar-powered refrigerated containers have emerged as a promising solution. By harnessing the power of the sun, these ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Our off-grid refrigerated containers use solar energy to maintain ideal cooling conditions, ensuring freshness and reducing waste. Equipped with high-performance compressors and evaporators, our ...

Tilted panels and solar containers from MEOX help faraway communities use solar energy for cold storage. These tools help keep food safe and support ways to protect the environment.

Equipped with integrated solar panels, LiFePO4 batteries, and a high-efficiency ...

That's it! The solar-powered refrigerated container has the power to fight food waste while providing cold storage for vaccine, blood, or medicine all through commercial cold storage. Off-grid refrigeration can ...

Equipped with integrated solar panels, LiFePO4 batteries, and a high-efficiency refrigeration system, it provides stable, low-temperature storage for agriculture, food distribution, logistics, and ...
