

Federal and state programs support free or subsidized home improvements for energy efficiency, weatherization, or solar energy. The programs apply to people ...

A curated list of government-funded resources and guides on solar energy technologies to make it easier for you to find information about solar.

NLR's solar energy research leverages our expertise--from materials to systems to commercialization--to continually improve the ...

Winter Storm 2026 Visit the FEMA website for the latest information on Winter Storm Fern. Visit USA.gov to learn how the U.S. government is responding to Winter Storm Fern.

These resources help government entities in the United States looking to procure solar or make it easier for their communities to install solar.

There are two main types of solar energy technologies--photovoltaics (PV) and concentrating solar-thermal power (CSP). On this page you'll find resources to learn what solar ...

Investments from the U.S. Department of Energy Solar Energy Technologies Office (SETO) have made solar energy more affordable for American consumers. You may be considering the option of adding ...

In addition to the energy efficiency credits, homeowners can also take advantage of the modified and extended Residential Clean Energy credit, which provides a 30 ...

These resources, compiled by the U.S. Department of Energy Solar Energy Technologies Office (SETO), cover a wide variety of topics, from the process of choosing and installing a solar energy ...

Below, you can find resources and information on the basics of solar radiation, photovoltaic and concentrating solar-thermal power technologies, electrical grid systems integration, and the non ...

Solar projects are making it easier for Americans to choose solar energy to power their homes. Since 2008, hundreds of thousands of solar panels have been ...

Energy Efficiency and Renewable Energy Technical Assistance - This compiled list provides technical assistance resources for states, communities, and tribes that support energy efficiency and ...

Genesis Mission leverages the Department of Energy's unique scientific datasets-spanning more than 100

petabytes of experimental and simulation data across every major domain of science--to double ...

Across the 245 million acres of public land it manages, the BLM maintains more than 19 million acres as open for potential solar development, ...

Solar Energy Resources for Government Officials The U.S. Department of Energy's Solar Energy Technologies Office offers resources for state and local government officials

The U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) supports research & development to harness America's abundant solar resources for secure, ...
