How to draw a solar panel?

To provide depth and dimension to the solar panel, we will shade the individual cells. Use a 4B pencil to shade one side of each cell, creating a gradient effect. Start by applying a light shade and gradually darken it towards the edge of the cell. To make your solar panel drawing more realistic, add some additional details.

How do you make a solar panel look real?

To give the solar panel a realistic appearance, add texture to each solar cell. Use light diagonal lines to create a pattern within each cell, representing the texture of the solar panel's surface. Now, let's draw the connectors that link the solar cells together. These connectors typically extend from one cell to the next in a zigzag pattern.
