Figure 690.1(B), Identification of PV System Components in Common Configurations, is another important section solar installers need to consider re Codes. Structural Codes. There are actually five different images in 690.1(b) which the 2017 Code cycle updated. These images are important to examine because they visually help installers understand how to apply Code requirements to different solar PV components and circuits. For example, the image shown below, based on the Code 690.1(b) Figure, shows a direct g... See more on mayfield.energy.NFPA Energy Storage Systems (ESS) and Solar Safety - NFPA.
