

# The world's number one monocrystalline silicon solar module

In November 2022, LONGi set a world record for the conversion efficiency of crystalline silicon cells at 26.81%. And then, LONGi increased this record to 27.3% in May 2024, and ...

Monocrystalline silicon represented 96% of global solar shipments in 2022, making it the most common absorber material in today's solar modules. The remaining 4% consists of other materials, mostly ...

The top five solar module producers in 2011 were: Suntech, First Solar, Yingli, Trina, and Canadian. The top five solar module companies possessed 51.3% market share of solar modules, according to ...

Embrace the power of solar energy with LONGi, the global leader in monocrystalline solar panels. Discover their range of high-performing products.

Targray mono solar cells are ideally suited to the evolving needs of today's PV manufacturing industry. Trusted by solar module manufacturers around the world, our monocrystalline c-Si cells are ...

Monocrystalline solar panels are the top choice for homeowners looking for high efficiency and long-term value. Made from a single crystal of pure silicon, these panels convert ...

JinkoSolar has set a new world record for the fourth time in a year with the maximum solar conversion efficiency of 25.4% for its large-size passivating contact solar cell. This result has ...

Monocrystalline solar panels have completely replaced polycrystalline panels as the most popular solar panel in the world. Monocrystalline solar cells now account for 98% of solar cell ...
