

Three-phase rental service for power storage cabinets in network server rooms

Our comprehensive range of 3 phase uninterruptible power supply solutions are meticulously designed for server rooms and data centre applications, starting from 10kVA.

Server Technology offers 3 Phase PDUs with Alternating Phase. This allows for power to be phased on a per-outlet basis instead of a per-branch basis to better support your high-density application.

We offer an array of UPS and Battery backup rentals for almost any application. In need of a single-phase rackmount or a three-phase stand alone UPS, we got you covered. Sizes range from 3kVA to ...

Our UPS Rental service provides reliable and secure power, ensuring your operations run smoothly without any interruptions. A three-phase UPS (Uninterruptible Power Supply) is a type of power ...

Three-phase power distribution units are designed for use with all three-phase uninterruptible power systems (UPSs) and three-phase power sources. A PDU is housed in a single, free-standing cabinet.

USPWR provides proven, best in class Cabinet Power Distribution Units (PDUs) including 3 Phase PDUs and Single Phase PDUs for all your critical power and data center needs.

At Unified Power, we provide a wide range of critical power equipment rental options. If buying a UPS exceeds your company budget, renting critical power equipment can be a convenient and cost ...

Eaton's premium-grade floor and wall-mount server racks and cabinets organize and secure IT equipment wherever it is located, from high-density data centers to the tightest of spaces at the edge ...

Application requirements include power protection for computer, blade servers, VOIP and network switch and router equipment and other mission critical applications requiring emergency backed up ...

Our smaller, lighter and modular UPS design makes it easier for you to find space for your server's battery backup - plus you can add or remove modules to support changing power requirements.
