

Battery manufacturer Freyr Battery has agreed to acquire a 5GW module manufacturing facility in the US state of Texas from leading Chinese module manufacturer Trina Solar.

The transaction can be traced back to November 2024, when Trina Solar's board of directors approved a proposal authorizing its wholly owned subsidiary, Trina Solar (Schweiz) AG, to ...

The new manufacturing facility, financed by Trina Solar, will include seven photovoltaic module assembly lines, producing three types of modules suitable for utility-scale ground-mounted power ...

Trina Storage has signed a memorandum of understanding (MoU) with Pacific Green Energy Group to supply up to 5GWh of battery energy storage systems between 2026 and 2028.

Dubbed Elementa 2 Pro 5 MWh, the system uses 314 Ah cells with a 15,000-cycle lifespan. "The Elementa 2 Pro utilizes EV-grade cells that undergo rigorous abuse testing to ensure ...

Our mission is to lead the transition to renewable energy through cost-effective and superior storage solutions. Based on advanced battery technology, we provide the most reliable energy storage ...

Based on advanced battery technology, we provide the most reliable energy storage solution - from analysing the technical challenge, to designing flexible innovations that meet every customer's ...

Pty Ltd (hereinafter referred to as "Pacific Green") has entered into a Memorandum of Understanding. The two sides intend to cooperate on the supply of 5G Wh grid-level battery energy ...

Trina Solar has finalized the sale of its 5 GW solar module manufacturing facility in the United States to T1 Energy, marking the completion of a cross-border transaction first approved by ...

Upon completion of the transaction, Trina Solar will receive \$100 million in cash, \$150 million principal amount of senior notes and 45,877,960 shares of FREYR common stock.
