

How much do Yingli solar panels cost?

Yingli's solar panels will cost you anywhere between \$2.50 and \$3.10 per watt. For reference, an average 7kW solar system can cost you about \$21,000 before the federal tax credit. You can expect Yingli Solar panels to be slightly below the average because they are known as a less expensive brand.

Do Yingli solar panels have a warranty?

Yingli offers a 12-year product warranty on all of its panels. Most other solar panel manufacturers offer a 10-year product warranty. Limited power warranty: A solar panel may look and perform well initially but if the internal components are cheap, it will soon underperform.

Who makes Yingli solar panels?

Yingli Solar is one of the oldest renewable energy manufacturers and has been in business since 1998. The Yingli business model covers the entire production process of the panel. From the raw materials that make silicon solar cells, or ingots, to the backsheets, Yingli strives to ensure that each solar panel is high-quality.

Are Yingli solar panels a good choice?

Yingli Solar has modules that range from 315 - 450 watt solar panels, which is a solid range to choose from. Either one of Yingli's residential solar panels will provide enough power to keep your home's electricity running. A solar panel's efficiency rating represents the amount of energy absorbed that will be turned into electricity.
