

Wind power and photovoltaic power generation projects to be abolished

Just one solar project has been approved on federal lands since Trump took office in January, and none have been permitted since July when Interior Secretary Doug Burgum ordered ...

Since taking office, the Trump Administration has paused permits on all new wind and solar projects on public land, both onshore and offshore. New wind and solar power installations, and...

Across America's power grid, there's a growing gap between what we need and what we'll allow. As the planet warms and climate disasters grow more costly, the U.S. has set a target to reach ...

Trump signed into law the One Big Beautiful Bill Act, a massive tax and spending package that ended subsidies for wind and solar energy projects years earlier than planned.

Because large-scale solar and wind projects typically are built outside city limits, USA TODAY's analysis focuses on restrictions by the county-level governments that have jurisdiction.

President Donald Trump said the U.S. will not approve wind or solar power projects. Trump has tightened federal permitting for renewables with Interior Secretary Doug Burgum now ...

More than \$14 billion in clean energy investments in the U.S. have been canceled or delayed this year, according to an analysis released Thursday, as President Donald Trump's pending megabill has ...

Our analysis reveals that 1,891 power projects with a combined 266 GW of generation capacity have been canceled in 2025 --equivalent to roughly one-quarter of America's entire current electricity ...

More than 60 large wind and solar farms under development on federal lands, such as Jackalope Wind, are being stymied. But the administration is also holding up hundreds of wind and ...

Explore the impact of canceled power generation projects in the U.S. across solar, wind, and battery storage sectors, driven by grid constraints and data centers.
